MID 50KTL3-X2 Advantages

High Yields

MPPT current 32A, string current up to 16A-->Compatible with high power modules

Start voltage 200V-->start early in the morning, stop late afternoon, long working time during the day

Compact Design and Easy Installation

50kW@37kg, half weight and size of MAX 50K, easy transport and installation

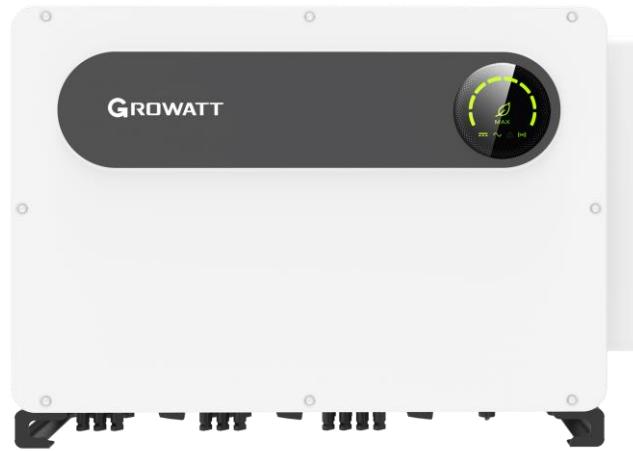

OLED and touch key for easy local configuration

Stable Supply of IGBT

Since there is lack of IGBT module, the MAX inverter production is limited.

MID 50KTL3-X2 is not use IGBT module, the production is not limited.
